## COURSES

The Complete JavaScript Course: From Zero to Expert  
Udemy

NodeJS Complete Development Course  
Udemy

## INTERESTS

Chess

Cricket

Energetic CS graduate passionate about software development, seeking a challenging role to learn, grow, and contribute effectively. Committed to delivering exceptional results and expanding knowledge in the industry.

## EDUCATION

Ramniranjan Jhunjhunwala College (June 02, 2021 - April 21, 2023)  
Graduation, BSC Computer Science 9.1 (CGPA)

Maharashtra Board (June 06, 2019 - April 02, 2020)  
HSC, Science 75%

Maharashtra Board (June 02, 2017 - April 21, 2018)  
SSC 87%

## PROJECTS

### Mail Box Client

Created Using ReactJs, Redux Node.js, Express.js, MySQL.

- Mailbox Client is an application where users can send and receive mail.
- Implement secure user authentication using JWT to ensure that users can access only their own data.
- Implement client-side routing using React Router to create a smooth, single-page application experience.
- Each user has their own account and users cannot access other users data.
- Demo - <https://youtu.be/aWRFHMLM7Ss>

<https://github.com/Pra1233/MailBox>

### GROUP CHAT APP

Created Using HTML, CSS, JavaScript, Node.js, Express.js, MySQL, Sequelize, and Socket.io .

- App for user registration, login, group creation, and chat with strangers and friends.
- Implemented SQL schema for one-to-one, one-to-many, many-to-many relationships using Sequelize.
- Added live chat using Socket.io.
- Tested it thoroughly and ran it on AWS for speed and reliability.
- Demo - [https://youtu.be/z9jEeMJQ\\_Uc](https://youtu.be/z9jEeMJQ_Uc)

<https://github.com/Pra1233/chatTask>

### Expense Tracker

Created Using HTML, CSS, JavaScript, Node.js, Express.js, MySQL, Sequelize, and AWS.

- Developed an expense tracking website with signup and signin (login)pages.
- Implemented robust security measures, including bcrypt for password encryption, JWT for user identification, and UUID for secure forgot password links.
- Offers separate user interfaces for regular and premium users. premium users can subscribe through Razorpay.
- Premium accounts include features like downloading expenses, viewing download history, and accessing a leaderboard.
- Users can monitor expenses, credits, and savings, displayed on the frontend.
- Integrated AWS S3 for efficient storage and retrieval of data.
- Demo - <https://youtu.be/CQXhflCoHkU>
